DESCRIBE THE PRESENT AND ORIGINAL (If known) PHYSICAL APPEARANCE

The Rogers home built in the 1840's is a clapboard structure of Italian Villa style.

The setting of the residence anchored on each side by two huge magnolia trees further exemplifies the significance of the structure. Simple brick steps lead up to a beautifully carved door. The woodwork head of the door reaches up to abutt the ceiling of the porch and towers over the two floor length windows with outside blinds.

The portico extends across the front and part way down each side, the roof being supported by slender, square, wooden columns with modest decorations.

The front entry opens into a center hall and foyer, flanked by two parlors.

The cornices are by no means pretentious, but gracefully proportioned and quietly elegant.

The home, which is now rented as an apartment building, maintains its attractiveness through the owner's apparent careful selection of tenants.

The rear of the house has been renovated to slightly change the elevation.

In total perspective, the house maintains a quietness and frankness of design that should be preserved.

Resume for architects Committee by Mrs. Ellamae Ellis League F.A.I.A

#### Exterior

The house is a two-story wood frame with narrow clapboard siding. The one story porch extends the full width of the house and part way along each side, and is supported by 8 desicately designed columns of solid wood. The porch windows are high and extend to the floor and are shuttered. The entrance is very massive extending to the underside of the porch ceiling and is enhanced with very massive imported double doors. The roof overhang at the second floor is supported by smalled after the original wood steps decayed.

#### Interior

The central hall with important entrance at front and back contains a beautifully designed stairway of black walnut. The plan of the house is simple and typical, having two large rooms on each side of the house both upstairs and downstairs. The rooms are large and the ceilings high. The elaborate cornices and the beautiful ceiling medallions through which each ceiling light is supported are evidence of the imported craftsmen in Macon at that time. The mantles in each of the main rooms are small Victorian style in black slate with Italian marblizing by hand. The wide board pine floors are in good condition on both floors.

The most fortunate thing about the house is that it has not been damaged by remodeling, in fact the only obvious change is in the rebuilding of the front entrance steps.

celebrations ever known in the city.

Rogers' son, W. R. Rogers, Jr., was an important business leader. In 1910 he was elected secretary-treasurer of the Continental Trust Company, and in 1912 he was elected treasurer of the Dempsey Hotel Company which built the Dempsey Hotel in downtown Macon, opening on March 12, 1913.

The Rogers home built in the 1840's of the Italian Villa Style was a fine example of gracious living in its era. Its setting of beautiful trees is located on the choice residential street of that time, and in the center of the College Hill area which has been recommended for preservation as an Historic District.

Its dignified simplicity provides a pleasing contrast with the magnificent columned Dunlap mansion next door, and with other imposing places along this street of many splendid and well kept homes.
